

**Graphite Sales, Inc.** 

## **Synthetic Graphite**

According to 29 CFR 1910.1200

SDS Number: 200 Revision Date 09/16/2020

Page 1 of 10

## 1 IDENTIFICATION

#### Product identifier used on the label

Name of substance Synthetic Graphite

CAS Number 7782-42-5 Synonyms Graphite

Recommended use of the chemical and restrictions on use

Intended uses High Temperature Applications, Friction Reduction, Lubrications, Coatings, and

Conductive Additive.

Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party

**Manufacturer** Graphite Sales, Inc.

220 Township Road #791

Nova, Ohio 44859

 Contact
 Graphite Sales, Inc.

 Phone
 419-652-3388

 Fax
 419-652-3985

Website <u>www.graphitesales.com</u>

**Emergency Telephone** 419-652-3388 (United States)

## **HAZARD(S) IDENTIFICATION**

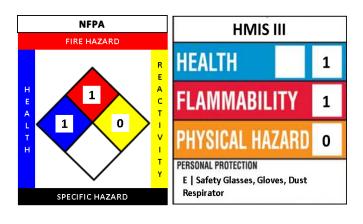

#### Classification of the substance or mixture

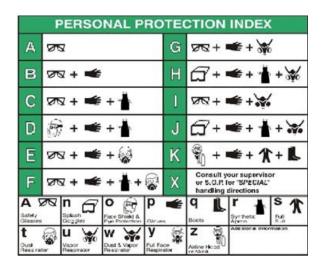

This product is hazardous according to OSHA HazCom Standard, 29 CFR 1910.1200.

NFPA: Health = 1, Fire = 1, Reactivity = 0

HMIS III: H1/F1/PH0

2

**Graphite Sales, Inc.** 

## **Synthetic Graphite**

SDS Number: 200 Revision Date 09/16/2020

Page 2 of 10

**GHS Classification** 

Physical HazardsNot classified.Health HazardsNot classified.Environmental hazardsNot classified.OSHA defined hazardsCombustible Dust.

**Label Elements** 

Labelling in accordance with Regulation of OSHA 29 CFR 1910.1200.

Pictogram: No pictogram.

Signal word: Warning.

**Hazard statement:** May form combustible dust concentrations in air.

**Precautionary statement:** Not applicable.

Hazard(s) not otherwise classified (HNOC)

None Known.

## COMPOSITION/INFORMATION ON INGREDIENTS

#### **Mixtures**

3

| No | Chemical name      | <u>CAS number</u> | <u>%</u> |
|----|--------------------|-------------------|----------|
| 1. | Synthetic Graphite | 7782-42-5         | 100      |

| 4 | FIRST-AID MEASURES |
|---|--------------------|
|---|--------------------|

#### **Description of first aid measures**

**Inhalation** Blow nose to remove substance from nasal passages. Give oxygen or artificial

respiration if needed. If symptoms develop, move victim to fresh air. If symptoms

persist, obtain medical attention.

**Ingestion** Generally, this product does not irritate through ingestion. Rinse mouth with water.

Give 3-4 glasses of water or milk to dilute stomach contents. Do NOT induce vomiting. If vomiting occurs, give more water or milk. Never give anything by mouth to an unconscious person. If symptoms develop and/or persist, obtain medical

attention.

**Skin contact** Generally, this product does not irritate the skin except through mechanical

abrasion. As a precaution, take off contaminated clothing and shoes immediately. Promptly flush skin with water for at least 15 minutes to ensure all chemical is

removed. If reddening develops and/or persists, obtain medical attention.

**Eye contact** Do NOT rub eyes. Flush with large amounts of water for at least 15 minutes, lifting

upper and lower lids occasionally. Remove contact lenses if present and easy to do

so. If eye irritations persists, obtain medical attention.

## Most important symptoms/effects, both acute and delayed

The most important known symptoms and effects are described in the labeling (see Section 2) and/or Section 11.

### Indication of immediate medical attention and special treatment needed

No data available.

**Graphite Sales, Inc.** 

## **Synthetic Graphite**

SDS Number: 200 Revision Date 09/16/2020

Page **3** of **10** 

5

#### FIRE-FIGHTING MEASURES

**Flammability** Combustible at high temperatures when finely dispersed in air.

**Flash Point** No data available. **Burning Rate:** No data available.

**Autoignition Temp** 300 °C (572 °F) (air method)

LEL Not determined. UEL Not determined.

**Extinguishing media** Water Spray, Carbon Dioxide, Alcohol-Resistant Foam

Specific hazards arising from

the chemical.

**Carbon Oxides** 

**Special protective equipment** and precautions for fire-fighters

**Further Information** 

Firefighters should wear full-face, positive-pressure respirators.

If incinerated, may release toxic fumes. Use water spray to cool unopened containers. Do NOT use high volume water jet to extinguish fire, as the force of the water jet may cause burning powder to spread (burning powder will float). Product has a combustible dust hazard. Take care to avoid creation of dusts while extinguishing fires. See Section 7 for more information on safe handling. See Section 8 for more information on personal protection equipment. See Section 13

for disposal information.

6

### **ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures **Environmental precautions**  Use personal protective equipment, including dust respirator. Avoid dust formation. Avoid breathing dust. Keep from contacting skin or eyes. Ensure adequate ventilation. Evacuate personnel to safe areas.

Prevent further release (leakage/spillage) if safe to do so. Do not allow product to enter drains. Do not allow to drain to environment. Spill and release of this material to navigable water in sufficient amounts that cause sludge or emission under the water must be reported immediately to the National Response Center (800-424-8802), as required by U.S. Federal Law. Contact the Coast Guard and appropriate state and local regulatory agencies. Failure to report these spills may results in substantial civil and criminal penalties.

Methods and materials for containment and cleaning up

Pick up and arrange disposal without creating dust. Sweep up, shovel or collect spillage with an electrically protected vacuum cleaner equipped with HEPA (high efficiency particulate air) filtration, if possible. If necessary, light water spray will reduce dust for dry sweeping. Place contaminated material into suitable, closed containers for disposal. Dispose of contaminated material according to Section 13. After spillage has been collected, area may be flushed with water or wet-brushed.

Ensure adequate ventilation.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### 7

### **HANDLING AND STORAGE**

#### Precautions for safe handling

Wear protective clothing. Avoid breathing dusts. Avoid formation of dusts. Avoid contact with eyes, skin, or clothing. Keep containers closed when not in use. Do not expose containers to open flame, excessive heat, or direct sunlight. Do not puncture or drop containers. Handle with care and avoid spillage on the floor. Keep material out of reach of children. Keep material away from incompatible materials. Wash thoroughly after handling. Ensure adequate ventilation. Synthetic Graphite is a good conductor of electricity. Use caution when handling in areas where contact with electrical circuitry is possible.

# Conditions for safe storage, including any incompatibilities.

Keep container tightly closed. Store in a dry place. Store away from strong acids, strong oxidizing agents, chlorinated paraffins, lead oxide, manganese oxide, iron oxide, liquid oxygen, oils, chlorine trifluoride, liquid potassium, liquid rubidium, liquid cesium, potassium peroxide, fluorine, and moisture. If Synthetic Graphite contacts liquid potassium, liquid rubidium or liquid cesium at 300 °C (572 °F), intercalation compounds may be forms. These compounds may explode on contact with water or ignite in air.

| Component                          | Туре    | Value            |
|------------------------------------|---------|------------------|
| Synthetic Graphite (CAS#7782-42-5) | REL-TWA | 2.5 mg/m³ (resp) |

Engineering Measures All ventilation should be designed in accordance with OSHA standard (29 CFR

1910.94). Use local exhaust at filling zones and where leakage and dust formation is probable. Use mechanical (general) ventilation for storage areas. Use appropriate ventilation as required to keep Exposure Limits in Air below

TLV & PEL limits.

Eye/face protection When using material use safety glasses, gloves and dust respirator according

to HMIS PP, E. All safety equipment should be tested and approved under

appropriate government standards such as NIOSH (US) or EN 166 (EU).

**Skin Protection** Handle with gloves made from PVC, butyl-rubber, neoprene, nitrile or

fluorinated rubber. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact. Dispose of contaminated gloves according to applicable laws and

laboratory practices.

**Body Protection** Not required. Type of protective equipment should be selected based on

concentration amount and conditions of use of this material.

poorly ventilated spaces or in a manner that generates dust. For limited exposure to airborne dust use a dust mask of N95 rating or higher. For prolonged exposure, at a minimum use an air-purifying respirator with high efficiency particulate air (HEPA) filter. Full-face dust respirator may be required as backup to engineering controls when proper engineering controls

are not in place to keep TLV and PEL limits below defined thresholds.

**Hand Protection** No information available.

Control of environmental exposure

Other Protection

Prevent leakage or spillage if safe to do so. Do not let material enter drains.

**Hygiene Measures** No information available.

#### PHYSICAL AND CHEMICAL PROPERTIES

**Appearance** Gray to black solid (powder).

Physical State Solid.

ColorGray to black.OdorOdorless.

Odor threshold Not determined.

pH @ 100%: Not available.
